Platform Update April 2026

Introducing Desktop Live View & a smarter Admin Experience

Instant Access to Live Incidents from Your Desktop

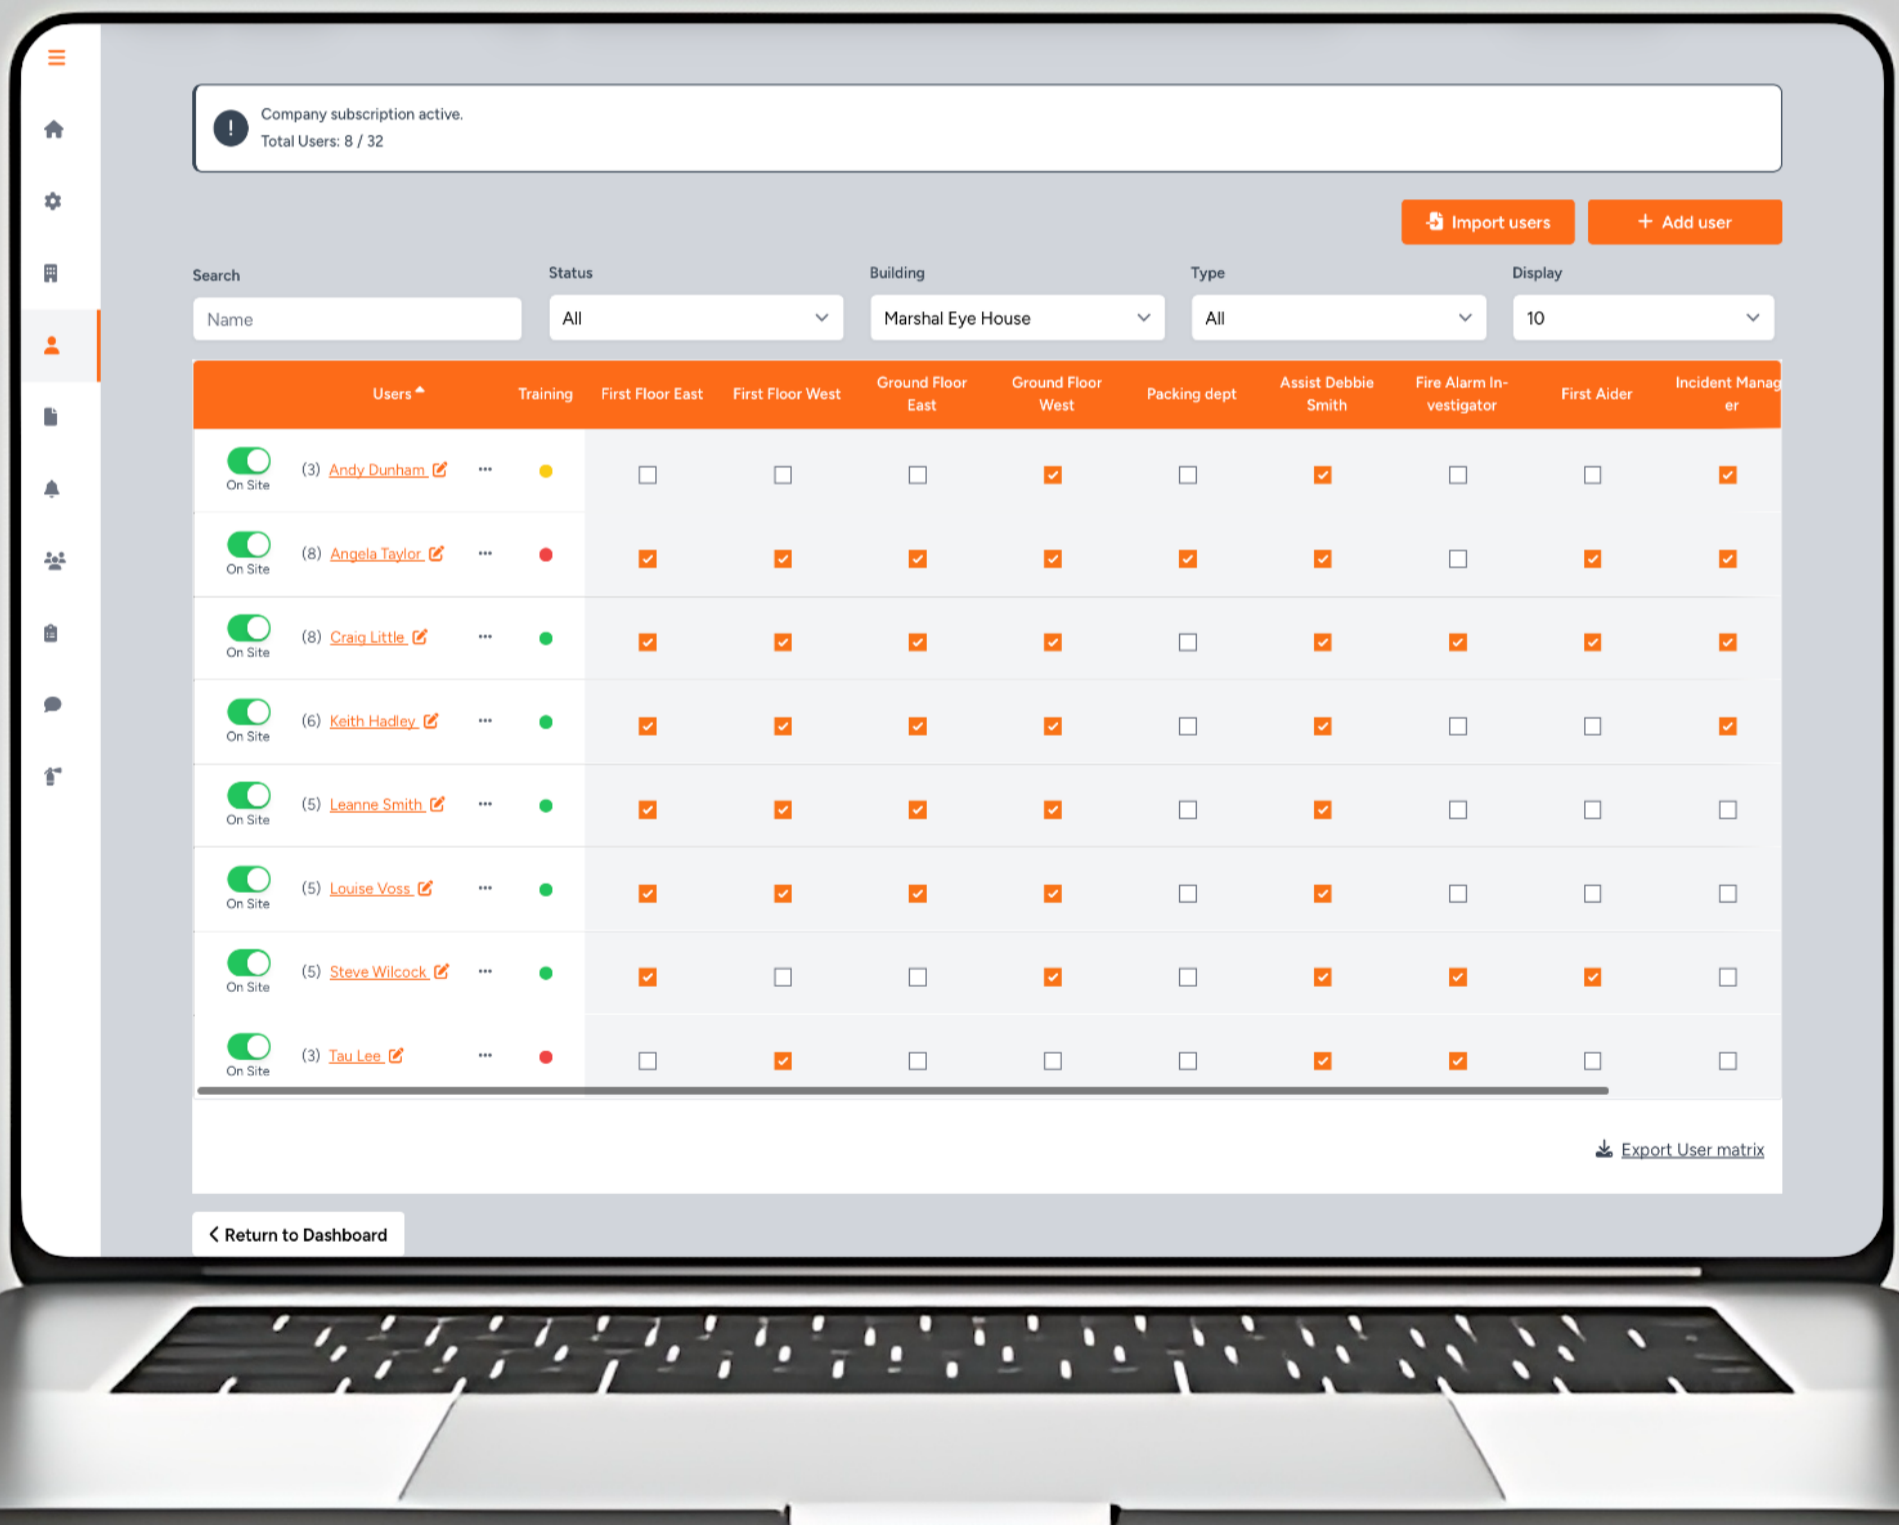

Desktop notifications on your PC can be clicked to instantly access 'Live View'. Staff can monitor Tasks and Roles in real time and communicate directly through their browser.

Freeze panes and slimmed down User Screen

A beautifully redesigned Dashboard to enhance the Admin experience, now with freeze panes.

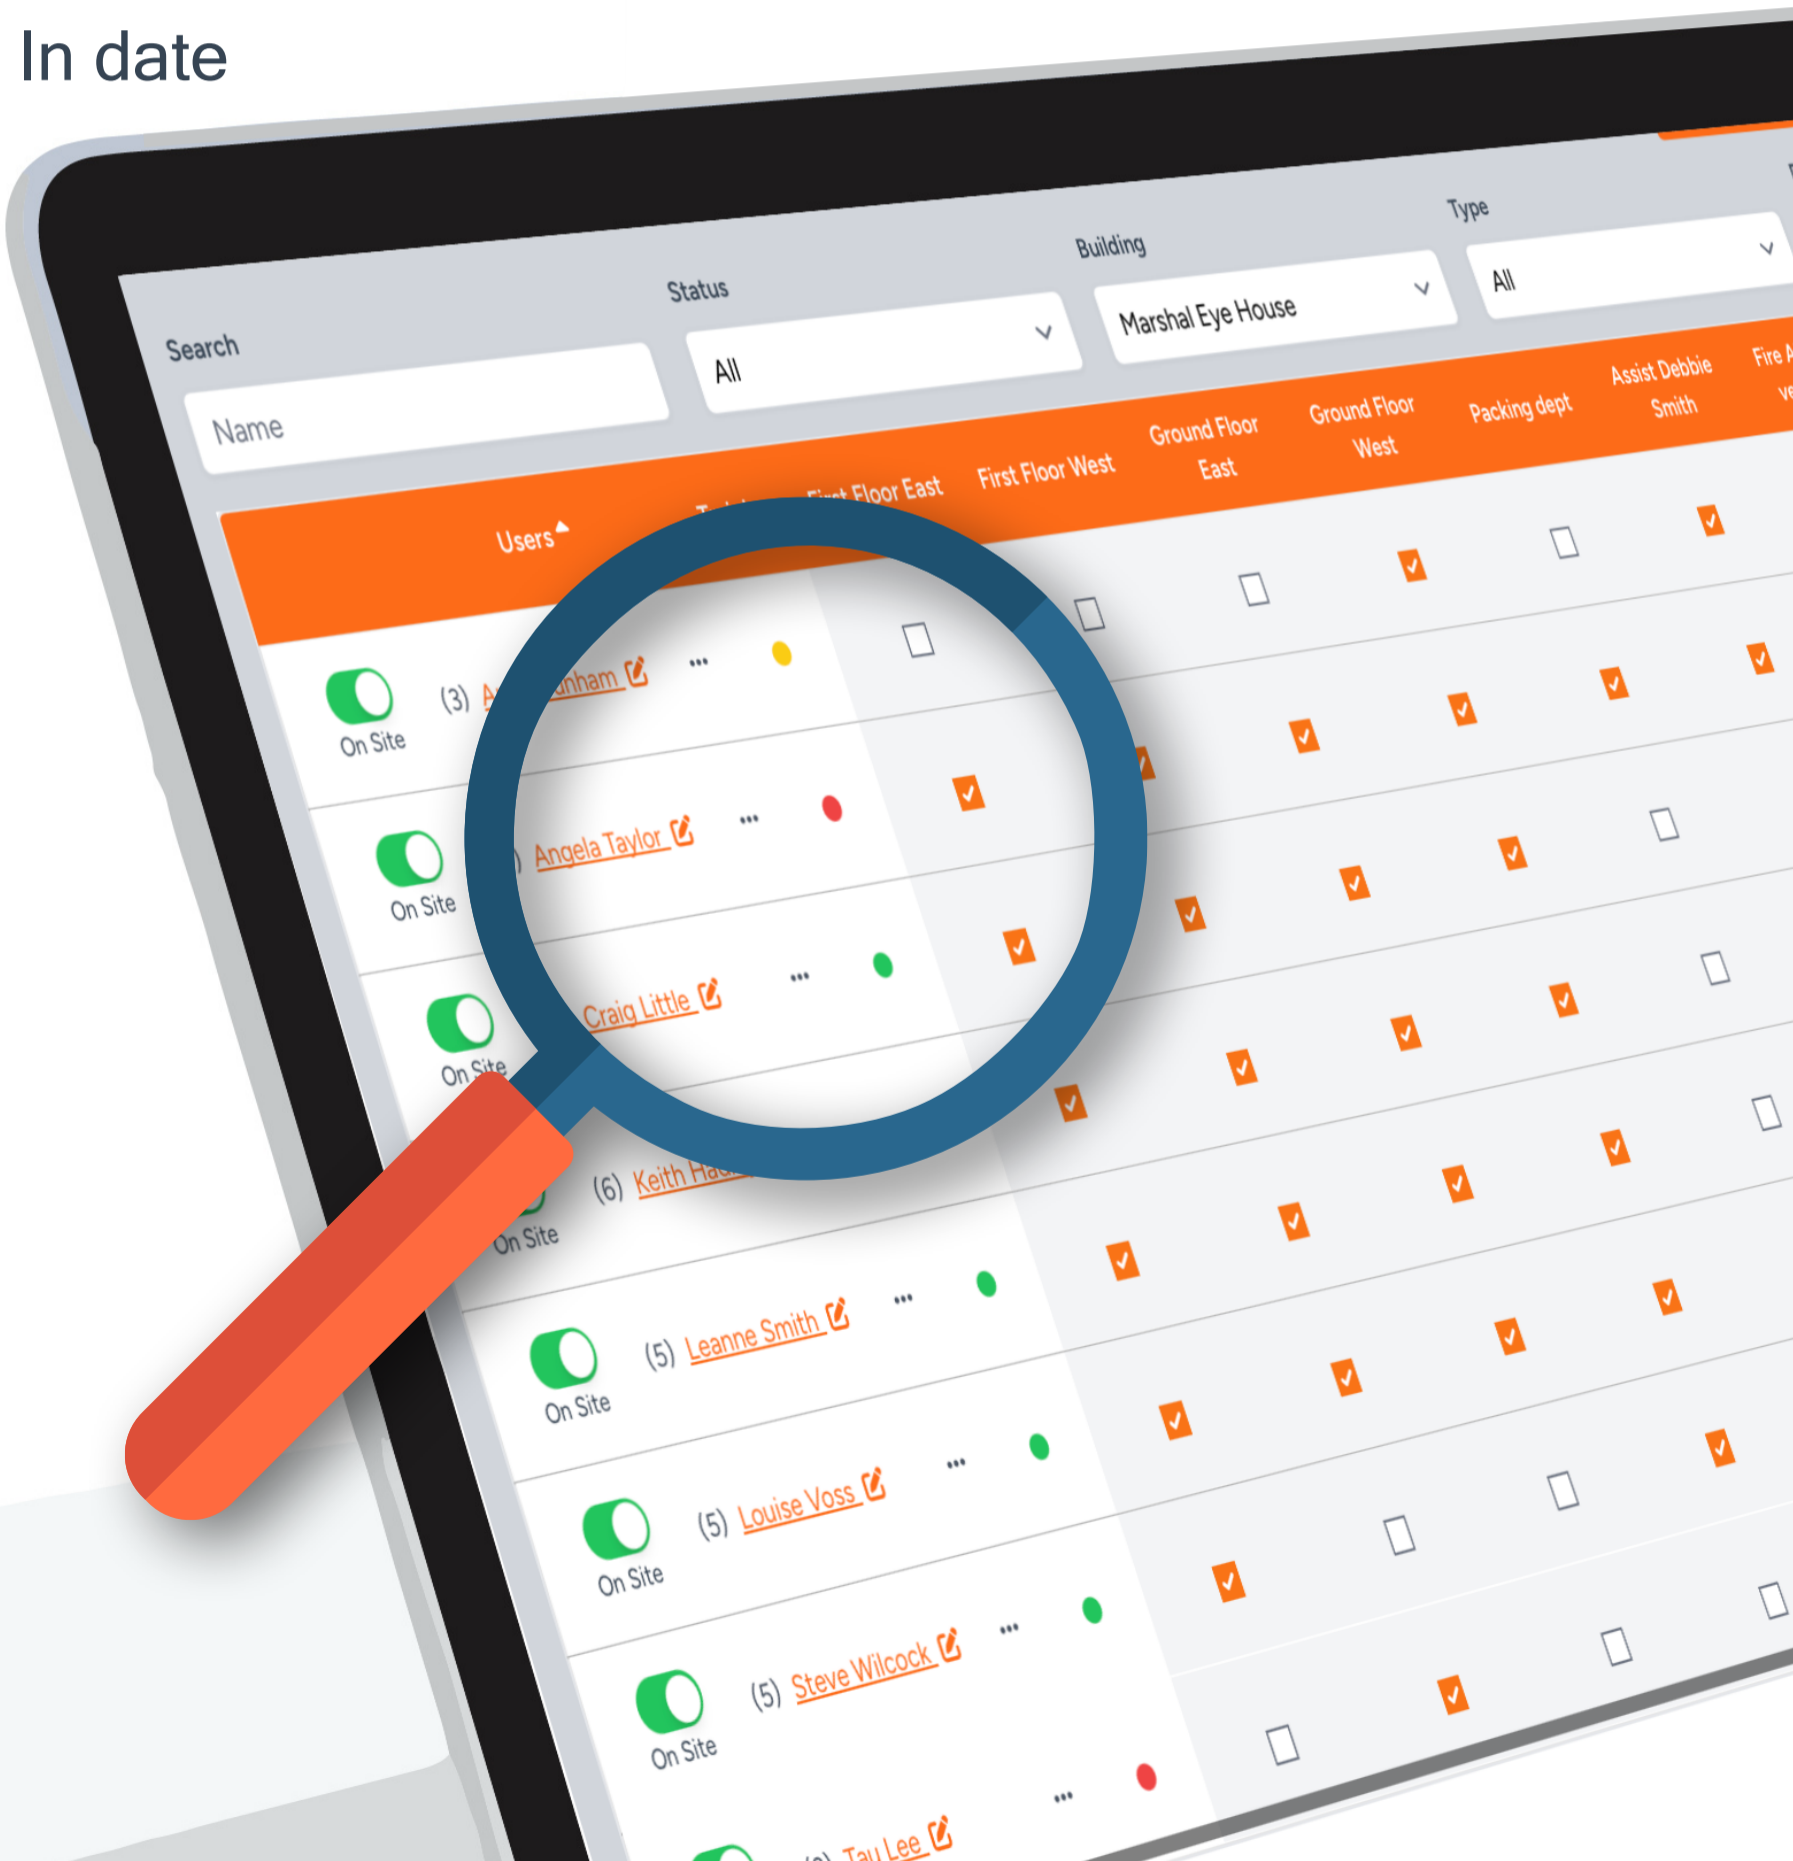

This allows Admins to quickly assign who can claim each Role or Task without losing sight of headings or user labels.

Track Staff Training at a Glance

Enter any staff training in the Dashboard put expiry dates and you will get a colour disc indicating the status next to the User

-  Overdue
-  Due within 60 days
-  In date
